

<p>1. Label the largest continent.</p>	<p>6. Label the ocean that touches the shores of Europe and South America.</p>
<p>2. Label the smallest continent.</p>	<p>7. Label the two continents the equator runs through.</p>
<p>3. Locate the United States. Within its borders, label the two hemispheres in which it is located.</p>	<p>8. Label the ocean that lies north of Europe.</p>
<p>4. Locate Africa. Within its borders, label the hemispheres in which it is located.</p>	<p>9. Label the ocean that touches the shores of both Asia and South America.</p>
<p>5. Label the continent directly north of Africa.</p>	<p>10. Label the ocean that lies to the south of Asia.</p>

1. Write the name of the parallel at 0° latitude.	6. Label the ocean that lies at 75° north latitude.
2. Write the name of the meridian at 0° longitude.	7. Label the continent where 15° south latitude and 60° west longitude is located.
3. Label the ocean where 15° south latitude and 90° east longitude is located.	8. Label the continent where 30° south latitude and 135° east longitude is located.
4. Label the ocean where 45° north latitude and 45° west longitude is located.	9. Label the continent where 15° north latitude and 15° east longitude is located.
5. Label the three continents through which 45° north latitude runs.	10. Label the ocean where 45° north latitude and 165° west longitude is located.

<p>1. Write the name given to a large area of sea or ocean that is partially enclosed and is larger than a bay.</p>	<p>8. Write the name given to a body of land that is smaller than a continent and is surrounded by water.</p>
<p>2. Write the name given to a large body of salt water that is smaller than an ocean.</p>	<p>9. Write the name given to a portion of land that is nearly surrounded by water and is connected with a larger body of land.</p>
<p>3. Write the name given to a body of fresh water that is completely surrounded by land.</p>	<p>10. Write the name given to a large area of level, or nearly level, land on Earth's surface.</p>
<p>4. Write the name given to a river or stream that flows into a main river.</p>	<p>11. Write the name of the place where a river begins. Also, write the name of the place where a river empties into a larger body of water.</p>
<p>5. Write the name given to a row of connected mountains.</p>	<p>12. Write the name given to a low area between ranges of mountains or hills.</p>
<p>6. Write the name given to an inlet of the sea or other body of water that is smaller than a gulf.</p>	<p>13. Write the name given to soil deposited at the mouth of a river.</p>
<p>7. Write the name given to a point or extension of land jutting into the water that is usually smaller or thinner than a peninsula.</p>	

1. Label the ocean that lies off the west coast of the United States.	9. Label the longest and biggest river in the United States, which has its source in Minnesota and its mouth in Louisiana.
2. Label the ocean that lies off the east coast of the United States.	10. Label the main river just west of the Appalachian Mountains that runs into the Mississippi River.
3. Label the large body of water that lies between Texas and Florida.	11. Label the river that forms part of the border between the United States and Mexico.
4. Label the four Great Lakes that form part of the border between Canada and the United States.	12. Label the large flatland between the Rocky Mountains and the Mississippi River.
5. Label the flatlands along the southeast coast of the United States.	13. Label the main mountain range that runs through the eastern United States.
6. Label the largest river that empties into the Pacific Ocean.	14. Label the first mountain range west of the Great Plains.
7. Label the river that runs all the way from the Rocky Mountains into the Mississippi River.	15. Label the high mountains in the western United States with a Spanish name.
8. Label the river that runs north-east from Lake Ontario into the Atlantic Ocean.
